

HOUSING INVENTORY COUNT

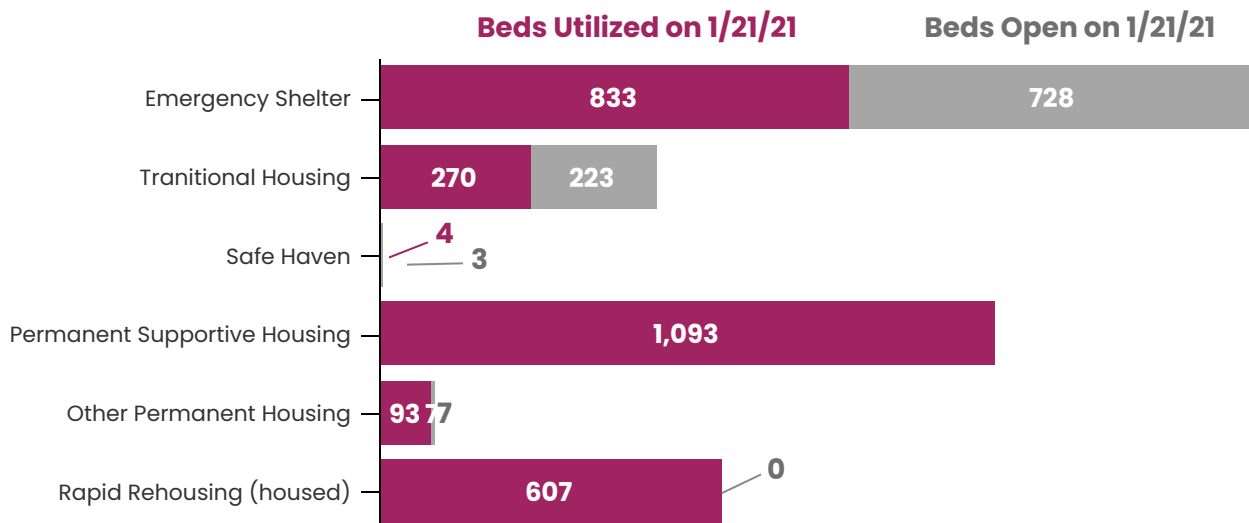

Nashville–Davidson County Jan. 21 2021

The Nashville-Davidson County Continuum of Care Housing Inventory Count (HIC) is a Point-In-Time (PIT) inventory of the programs dedicated to serving homeless and formerly homeless persons. It is a requirement by the US Department of Housing and Urban Development (HUD) and is used in the annual application process to determine Federal funding for homeless services throughout the country. The data used to make this report is also used to produce the Annual Homelessness Assessment Report (AHAR) to Congress.

The Housing Inventory Count includes the following components:

Shelter for people currently homeless persons. **Emergency Shelter**, including HUD Emergency Solutions Grant and/or federal, state, local, public, and privately funded shelters, hotel/motel vouchers, winter shelter programs, domestic violence shelters, Veterans Affairs (VA) funded emergency treatment and residential programs, Health and Human Services (HHS) funded Runaway and Homeless Youth (RHY) Basic Center programs (BCP). **Transitional housing**, including HUD-funded transitional housing projects, local public and privately funded transitional housing, HHS-funded RHY Transitional Living Programs (TLP), VA Grant Per Diem (GPD) and Compensated Work Therapy-Transitional Residence (CWT/TR) programs. **Safe Havens**, funded by either HUD or the VA Health Care for the Homeless Veterans (HCHV) program. These programs are also included as part of the 2021 Nashville-Davidson County Sheltered PIT Count.

Permanent housing. This includes **permanent supportive housing, rapid rehousing**, and other forms of **permanent housing for persons who were homeless upon entry into the project**. These programs may be HUD-funded, local public or privately funded, or funded through the VA. Types of permanent housing include tenant based vouchers, in which individuals or families may use the voucher to subsidize the market rate housing of their choice, project based vouchers, which are assigned to a specific project site, and sponsor-based vouchers, which are distributed by service providers who assist individuals and families in meeting their housing needs. These programs are intended to serve formerly homeless persons, and are not a part of the PIT Count.

	1/21/21 PIT Count	Total Beds Available	Utilization Rate
